Summary

Mathematics and Electronics & Communication undergraduate with experience in full-stack mobile development using Flutter, Firebase, and Supabase. Skilled in building scalable applications, designing intuitive UI/UX, and integrating backend systems. Strong focus on performance, usability, and real-world problem-solving.

Technical Skills

Languages: Java, Python, C, Dart

Frameworks & Tools: Flutter, Firebase, Supabase, React Native, Docker, PostgreSQL

Core Areas: Mobile Development, API Integration, UI/UX Design, System Design

Experience

Deepshorts.ai

Feb 2025 – Mar 2025

Mobile App Developer Intern | Remote

- Engineered the frontend of the MVP using Flutter with a strong focus on performance and scalability
- Connected backend APIs and validated endpoints using Postman for reliable communication
- Leveraged Docker and PostgreSQL to streamline backend development workflows
- Collaborated in an agile environment to deliver features under tight timelines

Swyp AI

Mar 2025 – Apr 2025

Mobile App Developer Intern | Remote

- Built and maintained frontend features using Flutter, ensuring smooth UI performance across platforms
- Collaborated with the design team to implement pixel-perfect, responsive interfaces from Figma mockups

Hudson

June 2024 – Sept 2024

Web App Development Intern | Remote

- Architected a war-game simulator for the Japanese Army using Flutter
- Built budget-tracking and map-based simulation tools for operational planning
- Delivered a lightweight, user-friendly application for non-technical users

Projects & Freelance Work

Driving Theory Kit (Climacrew, UK)

2025

Freelance | Client: Hem Shah 

- Built a full-stack mobile app using Flutter and Firebase, replacing an outdated system
- Crafted a DVSA-compliant UI to improve usability and navigation
- Improved app performance and user experience, resulting in higher engagement and ratings

Striide (Striide, USA)

2025

Freelance | Client: Nidhi

- Built a cross-platform mobile app using Flutter to enhance women's safety through community-driven incident reporting
- Engineered backend services with Supabase, including phone and email authentication
- Created a map-based interface for identifying and sharing unsafe locations in real time

Waves App 2024 — BITS Pilani Goa

Sept 2024 – Nov 2024

Personal Project | Senior App Developer

- Built and shipped the official Waves app, achieving 5,000+ downloads on the Play Store
- Implemented backend logic and incorporated secure payment systems using Firebase
- Delivered a responsive UI for real-time event schedules and live updates using Flutter
- Collaborated in a fast-paced team to deliver production-ready features on time

Education

BITS Pilani, KK Birla Goa Campus

Expected 2028

M.Sc. Mathematics + B.E. Electronics & Communication

Hill Top School, Jamshedpur

2022

Class XII (ISC) — 94.5% | Class X (ICSE) — 92%
